Details

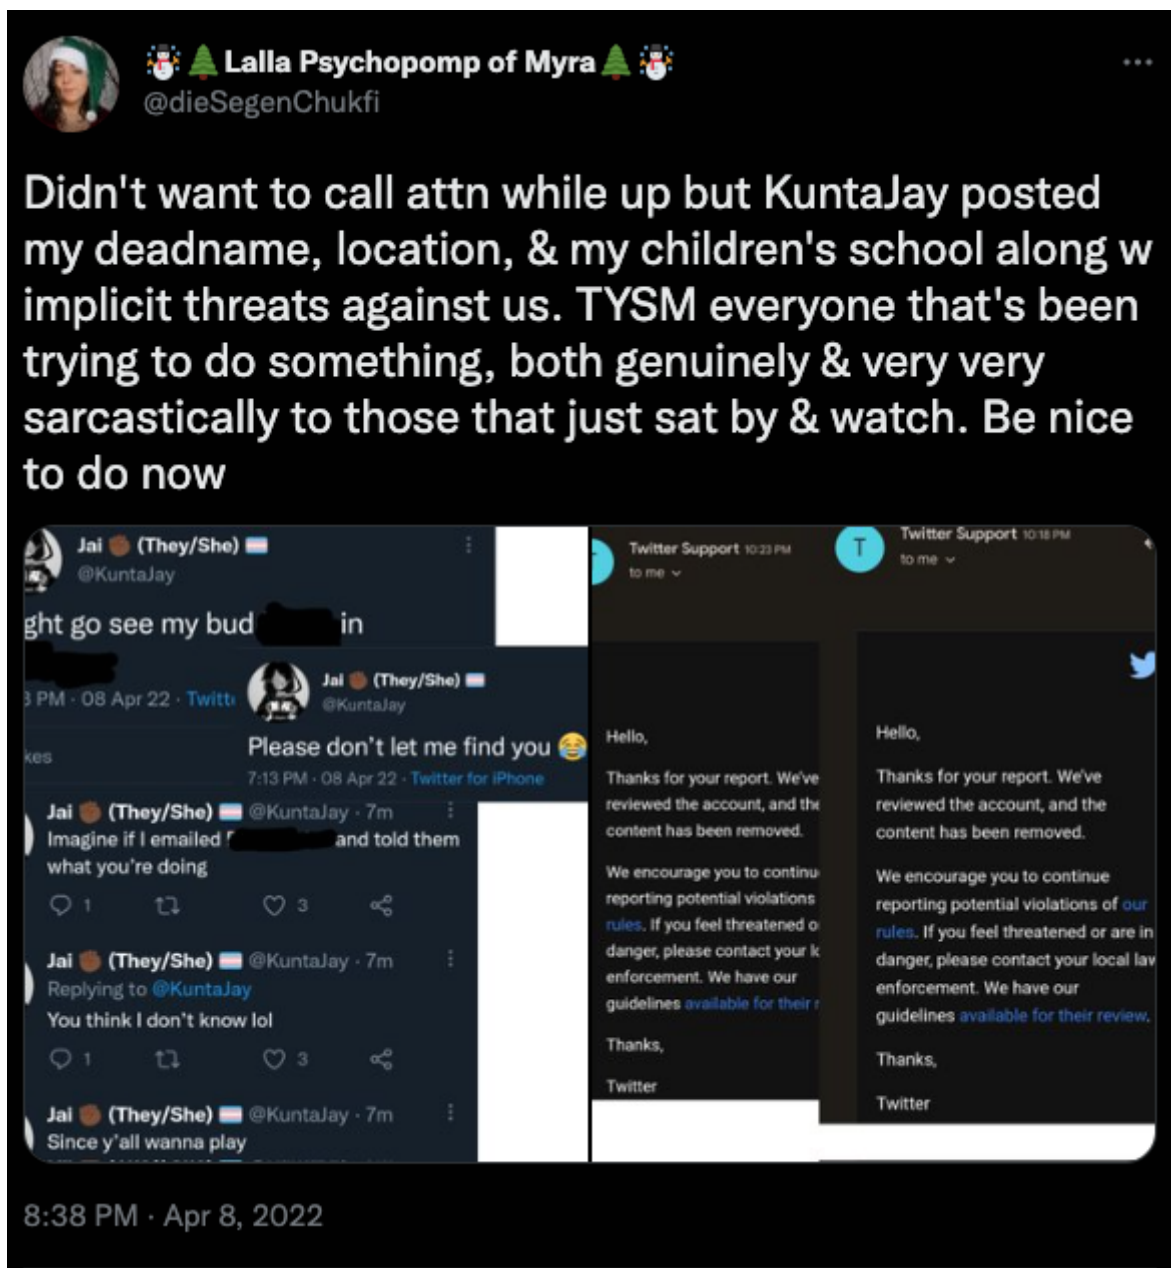

- Incident Date: 2022-04-08
- Key Members: Jai, DieSegenChukFi
- Type of Harassment: Doxxing, Transphobia, Threats

Background

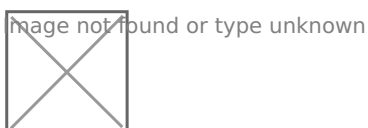

Laila (@diesegenchukfi) had been defending Chinch after months of harassment from the Pawg Patrol, when Jai decided to attempt to intimidate her by posting thinly veiled threats.

Synopsis

On April 8th, 2022, Jai (as @KuntaJay) posted several tweets wherein she deadnames @diesegenchukfi, posts the name of her children's school (where Laila was also employed), and then attempts damage control in a classic case of [Context Collapse](#).

On April 9th, Jai attempts to walk back the incident, starting the justification and muddying the waters for the jorbiter to begin to form the victim narrative that tends to follow an incident.

Jai is Innocent 🦊 🏳️‍🌈 (They/She)
@KuntaJay

I also didn't use their deadname
maliciously I didn't know they don't
go by it anymore so my bad on that.

Jai then made the claim that no doxxing took place as no information was supposedly shared:

@KuntaJay

It's wild how you can "dox" people
while sharing 0 information about
them

Jai is Innocent 🖐️ 🏳️‍🌈 (They/She)

@KuntaJay

I love how “imagine if I emailed your job the way you and your friends thought you emailed mine” turned into a lie about me doxing a child’s location and a ton of you people are eating it up lmao

Didn't want to call attn while up but KuntaJay posted my deadname, location, & my children's school along w implicit threats against us. TYSM everyone that's been trying to do something, both genuinely & very very sarcastically to those that just sat by & watch. Be nice to do now
